Project Backlog

Sprint #0

#1 - As an app admin, I want to be able to communicate with a database, so that I can keep records of all information within the app.

Sprint #0

#2 - As a member of the management team, I want to be able to have a Business Requirements Document, so that I can describe the characteristics of our proposed system.

Sprint #0

#3 - As a member of the management team, I want to be able to have a Management Plan, so that I can understand how the project is executed, monitored, and controlled.

#4 - As a player, I would like to be able to rate other players, so that I can enjoy each players sportsmanship.

≡

#5 - As a player, I want to be able to create a profile that shows my age, skill level, and interested sports, so that I get notified when a related game is started.
